

**Dual Degrees
Dual Majors
Dual Concentrations
in
the College of Agricultural, Consumer and Environmental Sciences**

Dual Degrees

The College of ACES offers only one degree, the Bachelor of Science. Students may earn only one degree offered in the College of ACES. Students may earn a degree in ACES and a degree offered by another college, according to campus rule.

Dual Majors

The College of ACES offers the following majors:

- Technical Systems Management
- Agricultural and Consumer Economics
- Animal Sciences
- Crop Sciences
- Food Science and Human Nutrition
- Agricultural and Environmental Communications and Education
- Human Development and Family Studies
- Natural Resources and Environmental Sciences
- Horticulture

There is no provision for a student to earn a degree in ACES with more than one major.

Dual Concentration

There is no provision for a student to earn a degree in ACES with more than one concentration in the major.

When provisions for dual majors are determined at the campus level, ACES will consider implementing guidelines regarding dual majors and dual concentrations.
